

ELIAS RICARDO ARAUJO SANTOS

SENIOR PRODUCT DESIGNER | UX ENGINEER

Santos, Brazil | +55 (13) 97807-7009 | eeliasricardoo@gmail.com
linkedin.com/in/eeliasricardoo | eeliasricardoo.com

PROFESSIONAL SUMMARY

Senior Product Designer and UX Engineer with 5+ years designing SaaS, enterprise, and AI-powered products. Experienced in end-to-end product design, user research, interaction design, design systems, prototyping, usability testing, and data-informed iteration, with technical expertise in React, Next.js, and TypeScript.

CORE SKILLS

Product Design: Product Discovery, Product Strategy, UX Strategy, User Research, User Interviews, Journey Mapping, User Flows, Information Architecture, Wireframing, Interaction Design, Prototyping, Usability Testing, A/B Testing, Design Systems, Accessibility (WCAG)

Tools & Collaboration: Figma, Requirements Gathering, Data-Informed Design, Cross-Functional Collaboration, Stakeholder Management, Agile/Scrum, GA4, GTM, Hotjar, Maze, React, Next.js, TypeScript

PROFESSIONAL EXPERIENCE

Oliver Agency | UX/UI & Front-End Developer

Dec 2024 – Jun 2026 | Remote

- Designed responsive digital experiences for enterprise clients including Serasa Experian, Danone, and Stellantis, translating business requirements into production-ready solutions.
- Created an AI-assisted workflow that reduced campaign production time from ~80 minutes to 10–20 minutes.
- Led WordPress migrations from Europe to Latin America, resolving a critical issue that had blocked seven previous attempts.
- Collaborated with designers, engineers, and stakeholders on accessibility, technical feasibility, and design QA.

TrailMerge | Product Designer & Front-End Developer

Aug 2025 – Dec 2025 | Remote

- Led product design and implementation for a SaaS platform, delivering 85+ responsive pages in 2.5 months.
- Translated requirements into user flows, wireframes, high-fidelity UI, and reusable design system components using Figma.

- Built a component library with 73% reuse and optimized layouts and assets, improving page load times by 40%.

Toolzz | Lead UX/UI Designer & Developer

Mar 2022 – Jul 2025 | Remote

- Led end-to-end product design for an LMS used by 100+ institutions, covering product discovery, requirements gathering, information architecture, user flows, interaction design, prototyping, and UI design.
- Designed UX workflows for AI-powered text-to-image, speech-to-text, and image-to-video products.
- Built and maintained design systems, reusable components, and design patterns to improve consistency and scalability.
- Conducted usability and A/B testing, iterating from user feedback and behavioral insights and contributing to 500+ active mobile users.
- Managed two designers and collaborated cross-functionally with product managers, engineers, and stakeholders in an Agile environment.

Zurich Insurance Group | UX/UI Designer

May 2024 – Nov 2024 | Remote, Brazil

- Conducted user research, competitive analysis, and journey mapping for Zurich Brazil's website redesign, identifying user pain points and conversion drop-offs.
- Created user flows, wireframes, and Figma prototypes and used GA4/GTM data to support data-informed design decisions.

Edulabzz | UI Designer

Sep 2020 – Mar 2021 | São Paulo, Brazil

- Designed responsive web and mobile experiences in Figma, creating wireframes, high-fidelity interfaces, and interactive prototypes.
